### BEST PRACTICES - JULY 2022

- Plantation for a herbal garden at the HWCs
- Re-arranging of drugs as per NQAS
- Administration of Iron Sucrose and counseling on Antara Inj. by CHOs
- Vidisha Medical college committee did an exposure visit to HWC Vidisha
- Technical advisor visit to the intervention HWCs and Medical colleges of Bhopal, Vidisha and Khandwa direct interaction with the KMN committee members.

#### HWCs IMPROVED ADMINISTRATION OF IRON SUCROSE

Screening and management of mild and moderate anaemia in pregnant women has been observed with continuous supportive supervision and mentoring of HCWs, as well as adoption of inj. iron sucrose through community participation and stakeholder engagement.

Efforts of Approx 278 HCWs of intervention HWCs in 19 districts have benefited the pregnant women through continuous tracking and follow up and a mean rise of 2.14 gm/dl in the hb level has been observed.

### GLIMPSES FROM THE FIELD

THOUGHT OF THE MONTH

Plantation for a herbal garden

Technical advisor visit to Medical college & HWC

Re-arranging of drugs & counseling on Antara Inj. at HWCs
