- E.H.R – functional in **02** UPHCs

## MODEL INITIATIVES:

- Paper presentation by the team on Health Systems Strengthening in IPHACON'23 Kolkata
- Counseling on Eat Right Practices done by the CHO from HWC Rakhi Khurd, Barwani
- Distribution of laptops to the CHOs for the new set of HWCs.
- Exposure visit ongoing of the new batch of HWCs to Model HWC in Anuppur

## BEST PRACTICES

### Ayushman Bharat HWC Day

The Ayushman Bharat (AB) HWC Day was observed in the intervention HWCs of 23 districts. On the fourth anniversary of the AB-HWCs, a themed activity "Mere Model ki Kahaani, Meri Zubaani" was organised by the CHOs and facilitated by the CInI team at their health and wellness centres. The activities were briefed a day before to the CHO & the staff, where they informed the ASHAs to call out the community for participation. General & NCD screening, counselling on the adaptation of oral health behaviours & drawing competitions were conducted in the school. Also, CHO and the staff spoke about the footfall and the importance of Model HWC, they spoke about their journey, hardships, and success and ended up taking a group selfie.

# INNOVATION AT HWC:

## Ayushman Ambassador

Ahmedpur Khaigaon HWC in the Khandwa district became the first HWC to have Ayushman Ambassadors. On the occasion of AB-HWC day, two school teachers were appointed as ambassadors based on their performance. The CHO oriented both of them, which was supported by the CInI team. Furthermore, the CHO ensures that their work is followed up. Their ongoing work on providing IFA tablets to adolescents and Hb reporting is lending a helping hand to the CHO.

Under the Ayushman Bharat initiative, the ambassadors will work on health thematic areas; the role will suit the school teacher who actively participates in extracurricular activities such as community engagement, VHND, JAS & spreading awareness on health issues. In addition, as needed, they will initiate school-level health camps.
