## BEST PRACTICES

### World Menstrual Hygiene Day

A 2 day celebration of World Menstrual Hygiene Day was observed in 22 districts. The CHO, ANM & ASHAs were pre-oriented on the agenda. ASHAs informed the community & schools about the celebration. It took an effort to celebrate the 2 days like a festival. The 1st day started with a health talk on menstrual hygiene for adolescents, families and teachers by the CHO. They highlighted the point of periods as a normal fact of life, access to sanitary products, safe, hygienic spaces in which to use them, and the right to manage menstruation without shame or stigma.

Second day went by celebrating the Red Dot Challenge with women and girls, a poster-making competition, Rangoli, sanitation talk, and usage of sanitary napkins & continued with a general screening of women & school-going girls.

# INNOVATION AT HWC:

## Enabled Continuous power backup

In order to strengthen the aim of access to affordable energy, Solar Energy System has been installed at 11 intervention HWCs of Barwani & Alirajpur leveraging partnership with Sustain Plus & Selco Foundation. The foundation understood the specific energy needs by considering the hardships of HCWs.

Now the HWCs are enabled with continuous power backup availability, which has greatly motivated Healthcare Workers' efforts to improve service delivery quality. HCWs' training on the system's maintenance and upkeep was much appreciated and well-covered by the local media. The foundation collaborated to understand the specific energy needs of such a mobile health delivery mechanism.
