- Validation initiated in the HWCs
- To strengthen Village Health and Nutrition Days (VHND) a counselling session was conducted for the CHO, ANM & ASHAs | Khandwa & Anuppur
- Maintenance of record keeping and registers are taken forward by the CHOs

BEST PRACTICE : INITIATING COMPETENCY ASSESSMENT

Healthcare centres are required to assess, maintain, demonstrate, track, and improve the competence of the staff. In order to inculcate this practice, Chhatarpur initiated knowledge and skills competency assessment for CHOs & ANMs across 10 intervention HWCs. This was conducted in collaboration with the district officials, wherein 13 Health care workers participated to assess themselves and identify the training requirement as per the skill gaps identified. This process strengthens the initial development, maintenance of knowledge and skills, educational consultation, remediation, and redevelopment of the healthcare workers.

Competency Assessment Testimonial by Dr Atul Gupta (BAMS), CHO of HWC Ghora, District Chhatarpur

Community Health Officer Dr Atul Gupta stated that **“कमियों के बारे में जानकारी प्राप्त हुई”** this competency assessment has given him a platform to discuss queries with clinical experts and get technical updates. He also mentioned the enhancement in his skill set while doing the day-to-day activities such as BP measurement with following protocols after the Competency Assessment.

CHO Dr. Atul Gupta

GLIMPSES FROM THE FIELD

Accelerating the journey towards universal health coverage
